

OUTDOOR EMERGENCY CARE REFRESHER

Outdoor Emergency Care® is the NSP's award-winning training program for patrollers and others in the recreation community who deal with emergency situations. This nationally recognized program is designed to help you manage the toughest emergencies, in all seasons.

OEC technicians attend OEC refreshers on an annual basis. This intensive training activity distinguishes OEC certification from other EMS credentials, and helps full-and part-time rescuers update their competencies by reviewing one-third of the OEC curriculum.

Prerequisite: Current Outdoor Emergency Care Certification
